## Summary

AWS Certified Solutions Architect – Associate and Cloud Practitioner, and an engineering student with hands-on experience in cloud architectures, cloud security, serverless applications, and AI-driven systems, specializing in security assessment, DevSecOps, and AWS solutions.

## Technical Skills

- **Cloud:** AWS (EC2, S3, RDS, Lambda, CloudFront, VPC, EKS, ECS, Lightsail), Azure, GCP
- **Cloud Security:** CSPM, CWPP, Vulnerability Management, Threat Analysis, Risk Issues Remediation, Runtime Security, Cloud Misconfigurations
- **DevSecOps:** CI/CD Security, GitHub Actions, Docker, Kubernetes, Container Security
- **Programming:** Python, C/C++, JavaScript, HTML, CSS, React, REST APIs, Serverless AppDev
- **Tools:** Wiz, Git, GitHub, Linux, AWS SAM, Streamlit, VAPI, Postman, ShadCN UI, Vite, Framer Motion

## Experience

### Cloud Security Trainee

Mar 2026 – Present

*eSec Forte Technologies*

*Gurugram, Haryana*

- Securing **one of India's largest telecom operators** across AWS, Azure, GCP, OCI & OpenShift through **CSPM, CWPP, vulnerability management & cloud security assessments** using Wiz.
- Performing **cloud threat detection, runtime security & incident response**, investigating attack paths, workload vulnerabilities, and security incidents across production environments.
- Implementing **DevSecOps security controls** across IAM, network, containers, CI/CD pipelines & container images.

### AWS Engineer Intern

Jun 2025 – Sept 2025

*F13 Technologies*

*Delhi, India – Hybrid*

- Migrated an e-commerce platform to AWS using Lightsail, RDS, S3, and CloudFront, achieving 99.9% uptime.
- Built a serverless face recognition attendance system using AWS Rekognition, Lambda, S3, and API Gateway with 99% accuracy.
- Developed a multi-vendor inventory system using WordPress, EC2, DynamoDB & API Gateway, improving stock tracking by 75%.

## Projects

### YOC.ai – Your Own Coach.AI

2025

*Next.js, Firebase, Python, LLaMA, VAPI*

- Designed an AI interview coach integrating speech, emotion, and NLP analysis using Whisper, MediaPipe, and LLaMA.
- Built a multimodal coaching workflow delivering real-time feedback for interview preparation.

### Push2Prod

2026

*Node.js, Express.js, Docker, GitHub Actions, Git, SSH, Cloud VMs*

- Built a CI/CD platform that detects MERN, MEAN & Python stacks and generates Dockerfiles and GitHub Actions workflows.
- Automated end-to-end Docker container deployment to cloud VMs through GitHub Actions and SSH orchestration.

## Education

### Dronacharya College of Engineering

2024 – 2027 (Expected)

*B.Tech, Electronics & Computer Science*

*CGPA: 8.0/10*

### Government Polytechnic Ghaziabad

2024

*Diploma*

*Percentage: 72%*

## Leadership & Achievements

- **Cloud Lead – Victors Club:** Mentored 150+ students in AWS and Cloud Engineering and organized cloud-focused hackathons with INR 1.5 Lacs+ prize pools.
- **Technical Lead – The CyberSapiens:** Conducted cloud security workshops and contributed to security-focused initiatives.
- **Community Regional Lead – TigerGraph:** Led developer hackathons and community meetups, fostering collaboration, knowledge sharing, and an active developer community.
- **Social Media Manager – E-Cell:** Increased event engagement by 65% through digital campaigns and online outreach.
